presents

Dale Gnidovec

Collections Manager and Curator at the Orton Geological Museum at The Ohio State University

Teeth, Jaws & Claws *

*The Carnivorous **DINOSAURS**
and Why Birds Are **DINOSAURS***

This talk looks at the tremendous diversity of theropods, or carnivorous dinosaurs that walk on two legs. Dale will also discuss why scientists believe birds are living dinosaurs. **This program is free and open to the public.**

* Co-sponsored with the Johnny Appleseed Metropolitan Park District.
